

# Deployment Force Trigger

---

This file exists solely to force a new Vercel deployment.

Created at: 2024-09-27T00:46:58.000Z

Timestamp: 1758934418

The admin login issue persists due to Vercel Skew Protection.

This deployment should include:

- All API routes including /api/debug/database
- Updated environment variables
- Fresh build cache
- Complete sync between frontend and backend

Admin Credentials:

- Email: admin@waz.com
- Password: admin123

Expected to work after this deployment.
